ULTRAMAX 1000 1500 2000

Index 120664 120665 120666

EAN   

ULTRAMAX is a technologically advanced canister filter with design based on patented solutions that guarantee exceptional comfort of use, perfect water clarity, and optimum water parameters even in the most demanding aquariums. Thanks to the built-in pre-filter, the time between cartridge cleanings is greatly extended. The fact that the pre-filter is placed inside the lid means that you can replace it without removing the filter from the aquarium cabinet!
